

Staff Scientist (Sales and Support) UK **£20k-£27k plus car and benefits**

Background

Cambridge Research Systems was founded in 1985 by Professor John Robson FRS and his son, Tom Robson, to design and manufacture equipment for Vision Scientists. Now the market leader in this field, we remain dedicated to scientific and technical excellence in our growing range of solutions for both basic and clinical research.

The Position

The position would suit a recent vision science post-doc or orthoptist, or a more senior person, looking for a change of career that will build on their academic training, and reward enthusiasm and drive for success.

Staff Scientist (Sales and Support). The position is based at our UK office in Rochester, Kent, but will involve extensive travel visiting customers in the UK, and regular travel abroad to both customers and international academic meetings. Training will be provided on our product range, and you will also be expected to keep your scientific knowledge up to date. The successful candidate will be an outgoing and enthusiastic person, able to develop long term relationships with our customers and focus on commercial objectives; however sales experience is not necessary, as training will be provided. You will also be fully supported in all aspects of your work by our team of engineers and scientists.

Essentials

- experience and interest in vision science or eye movements
- good interpersonal skills
- clean UK driving licence
- basic IT skills (MS Office)
- ability and desire to work in a small team

Advantages

- language skills
- sales experience

Cambridge Research Systems Ltd Staff Scientist Recruitment

October 2003
Page 2 of 2

General Information

Cambridge Research Systems is based on the Medway City Estate, Rochester, Kent about 30 miles east of London and served by the A2 and M2 main roads and trains from Victoria and Charing Cross.
